

DON'T BE TEMPTED BY EXPENSIVE 'REMEDIES' FOR A CHANCE OF WINNING A DUBIOUS LOTTERY

The photo above shows the amount of “medicinal products” bought from mail-order catalogues by just one Derbyshire resident who thought they were in with a chance of winning a cash prize.

Many were items they did not want, many more were items that did not work. Please look out for yourself, relatives and neighbours to avoid being duped by scammers into buying items you do not want for the chance of a prize you will not get.
